Basin faucet. To be combined with [pop up waste](#). →

Our wash basin taps combines advanced technology, exquisite design, and top-notch performance to offer you the ultimate bathroom upgrade. With its sleek and modern appearance, it effortlessly enhances the visual appeal of your wash basin, becoming a focal point that exudes elegance and sophistication in a range of different finishes.

## Cleaning

Wipe the surface with a soft cloth and lukewarm water and possibly with soap solution. Avoid alkaline, acid-liming or abrasive cleaners.

Brass is a material that over time gets a beautiful patina but can be polished with brass polish. Copper also gets patina but should not be polished. The other shiny surfaces retain their luster.

## Decalcification

Aerators and shower handles should be regularly decalcified by placing them in a vinegar bath for a couple of hours. Should limescale stains occur, use eucalyptus oil and a soft cloth.

## Lubrication

Lubricate only with silicone grease.

## Maintenance

Visit our [YouTube channel](#) → where there are instructional videos for changing the ceramic cartridge, changing aerators and more.
